

# Outstanding Opportunities

This world renowned manufacturer and distributor of capital equipment has an established and successful Australian presence. Recent years have seen outstanding increases in profitability and sales have grown to over \$1 billion.

## management accountant

### • High Profile Role Liaising with Senior Management

Whilst this is a varied position there is a strong emphasis on the detailed preparation, analysis and interpretation of financial and operating results. This will involve interaction with all business users ranging from General Managers to Branch Managers around the country. A complex maintenance and service environment adds to the challenges of the position.

You have at least two to three years experience, an eye for detail and SAP/ERP knowledge. You have above average communication skills and enjoy interacting with management. A six figure salary package plus bonus can be negotiated.

## financial accountant

### • Six Figure Package

Working in a small team you enjoy resolving and breaking down problems in order to produce timely and accurate reports. You will prepare, reconcile and analyse the accounting statements and reports of the various legal entities to ensure the integrity of the Group's financial records.

You have superior communication skills and enjoy interacting with all levels of the business. Due to a 6 monthly job rotation scheme there will be continuous challenges.

If you are looking for your next step up in a vibrant, growing international company then these positions are for you. If you would like to discuss these career enhancing opportunities then please call **Amelia Kinsella** or **Michael Green** or send your resume to the email address below.
