

financial controller

- **The Leading Company in the PV Residential Market in Australia**
- **Join the Industry of the Future**

Join this dynamic and fast growing company that specialises in photovoltaic installations for residential projects around Australia. The company manages 20% of the Australian residential PV market and installs 1000 systems every month.

You report directly to the General Manager and are a vital part of the management team. You have responsibility for budgeting, P&L, GST and a small payroll. As the company imports its technology you will manage importing and taxation related issues.

You have strong company accounting skills and thrive in a fast growth environment with a sales turnover of \$80 million and growing. Salary is negotiable to a package of \$150,000.

If you are looking for your next step in the industry of the future then call **Julien Lacave** or **Michael Green** or submit your resume.
